DOM HOTEL

Dom Hotel is set within an aristocratic 17th-century palace that has been sympathetically restored, preserving its finest original features and combining them with a mixture of modern and vintage furnishings and a carefully edited collection of artworks. Be sure to visit the Deer Club; this concept lounge

is sumptuously appointed with silk velvet sofas and crystal chandeliers, and its selection of signature cocktails and Italian-inspired light bites have made the bar a place to see and be seen in the city.
